

Final Parser Lab

Cupes Andrei and Cotor Catinca-Florina

<https://github.com/andreicupes/FLCD/tree/main/Lab5>

Integrated all previous labs.

Program is working for the given combinations (g1.txt + seq.txt -> out1.txt and g2.txt + PIF.txt -> out2.txt)

For the sequence we have used the following one: (int) + int

For the PIF we have used the generated one from Lab 3.
